STATE OF IOWA, CERTIFICATE OF NURSERY INSPECTION

Office of State Entomologist, Ames, Iowa.

This is to certify that in accordance with Chapter 53 of the Acts of the Twenty-seventh General Assembly, as amended by the Thirty-first General Assembly (Code Section 2575-a51,) the nursery stock for sale by the Mount Arbor Nurseries, E. S. Welch, Propr., of Shenandoah, Iowa, has been inspected by a duly authorized inspector and has been found apparently free from dangerous injurious insects and plant diseases.

This certificate is invalid after July 31, 1916.

Certificate No. 4.

Dated 13 July, 1915.

J. E. GUTHRIE,

Asst. State Entomologist

SPRING OF 1916

ESTABLISHED 1875

Wholesale Trade List
OF THE

Mount Arbor Nurseries

E. S. WELCH, Proprietor

Shenandoah, Iowa

**We offer One of the Largest and Most Complete Lines of General Nursery Stock
in the United States.**

Any Business Firm in Shenandoah

TO THE TRADE:

In presenting our twenty-fifth Annual Spring List, I wish to thank our many customers for the liberal trade extended us in the past and to assure you of our appreciation of your continued patronage, which we shall make every effort to merit.

We urgently request correspondence and trial orders from new customers, feeling confident that you will be well pleased with our stock and method of doing business.

We have added to our equipment and plant until we have one of the most complete and best equipped nursery plants to be found anywhere, placing us in a position to give the best of service.

STORAGE—Our modern Storage Buildings are especially designed for handling Nursery Stock in the best possible manner, enabling us to get the stock to our customers in prime condition. You should consider this in buying.

Stock Handled Under Cover—We have the exposure of stock reduced to the minimum. After digging, all stock is immediately sent to our large packing houses where it is graded, packed and handled under cover. Customers may rely on receiving stock in prime condition.

Large Assortment of Stock in Storage. Shipments Made at Any Time.

Everything offered is young, thrifty, well-grown stock and graded to the highest standard.

We are always pleased to submit prices by letter on large lists of wants.

LOCATION AND SHIPPING FACILITIES

We are located in southwestern Iowa, fifty miles from Omaha on well drained land and have a fertile soil that cannot be surpassed in the United States. Three railroads (C. B. & Q., Wabash and K. & W.) afford competition in freight rates and a rapid and convenient shipping outlet in every direction. Two express companies (Adams and Wells Fargo) also give excellent service.

TERMS AND CONDITIONS

SHIPPING—Please give shipping directions, whether by freight or express, also route. If no directions are given we will forward to the best of our judgment, without assuming responsibility, as all goods travel at the purchaser's risk and expense. Our shipping season usually begins the last of September and continues throughout the winter and spring.

TERMS—Cash or satisfactory security, except we extend the usual terms of credit, to known, responsible nurserymen. Orders to be sent C. O. D. should be accompanied by one-fourth cash to receive prompt attention.

PRICES—The quotations in this list are for the wholesale trade only, and limited to the Spring of 1916. Should prices change either higher or lower, during the season, the prices made at the time an order is accepted are expected to stand.

RATES—Fifty trees, of not less than ten of a variety, will be furnished at hundred rates; three hundred trees of not less than ten of a variety at thousand rates. Long list of varieties of a few trees of a kind subject to higher prices. All trees above the $\frac{1}{2}$ to $\frac{5}{8}$ grades are tied in bundles of ten in grading. Order tens or multiples of ten of a variety as far as possible.

CAUTION—We accept all orders on the condition that they shall be void should injury befall our stock from frost, hail, fire or other causes over which we have no control.

GRADES—We grade carefully, in some cases by caliper, in others by height. When graded by both caliper and height the caliper must govern.

Dealers wishing to pack on our grounds will find our facilities first class and their orders will receive prompt attention.

GUARANTEE OF GENUINENESS—If any nursery stock, etc., proves untrue to description under which it is sold, we hold ourselves in readiness, on proper proof, to replace all such nursery stock, etc., that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

.....

Uniform Trade Terms of the American Association of Nurserymen

All Invoices payable net 60 days from date, with discount 2 per cent. 10 days; 1 per cent. 30 days.

For cash with order deduct 3 per cent cash discount.

All prices are for goods in Nursery, packing extra (except grafts are boxed free.)

No claims for rejections or deficiencies will be entertained unless made within ten days after arrival of goods.

Correspondence and inspection invited.

MOUNT ARBOR NURSERIES,

GRADE COUNT—For the benefit of customers we give an approximate grade count of number, size and variety unsold at this date, of our principal surplus. Customers in ordering should give second choice in varieties and sizes as far as possible, especially if in a hurry for shipment, as we do not substitute or make any changes without permission.

HEIGHT AND CALIPER—Height given of fruit trees is approximate and represents the average height of most varieties. Slow growing kinds will fall short of height specified, as it is intended that the caliper shall govern.

APPLES

Our apples are a fine lot of well grown trees with a strong root system. The grafted ones having been cut back when one-year, and then grown two years. Have a good assortment of 2 year buds. All mighty good values at prices we are quoting.

Prices except as otherwise noted.

FRUIT TREE STOCKS

American Grown

We have a good supply of Apple Seedlings which have made up well, were grown on new land and are free from insects and disease; they were not dug until well ripened. We guarantee them to give satisfaction. Prices subject to change without notice.

Prices and grades as follows:

	Per 1000
APPLE, $\frac{1}{4}$ inch and up, heavy, straight or branched	\$6 00
“ No. 1, 3-16 and up, straight or branched	5 00
“ No. 2, 2-16 to 3-16, straight or branched	2 50
“ No. 3, 2-16 inch caliper, straight and branched	1 00
“ No. 4, light grade for lining out.....	60

We can furnish a grade of grafters 3-16 and up in caliper, but not suitable for No. 1 grade. Price quoted on application.

Special grades made if desired.

PEAR, Japan, No. 1, 3-16 and up.....	10 00
PLUM, Native, No. 1, 3-16 and up.....	12 00
“ “ No. 2, 2-16 to 3-16.....	8 00

French Grown

We have our usual quantities of French Fruit Tree Stocks and Ornamentals contracted, but owing to the war conditions prevailing in Europe, all orders booked subject to arrival of stock.

Upon arrival of our Import shipments, which come in car load lots, all stock is carefully examined by a Government Inspector and only clean, healthy stock allowed to pass. All stock is carefully re-graded, hence customers can depend on getting stock of best quality without the risk of importing direct, which is an important item to consider in buying.

	Per 1000
APPLE, one year, 6 to 10 mm, branched.....	\$10 00

“ “ “ 5 to 7 mm	5 50

(French calipers in millimeters, 25 mm to the inch.)

All Seedlings packed very thoroughly in double paper lined boxes for which we charge to cover cost.

ROOT GRAFTS

Ever since the Mount Arbor Nurseries were established in 1875, growing Apple Seedlings, Apple Trees and making Apple Grafts for the trade and our own planting has been one of our specialties. For this work we employ only skilled labor and select the best of material. We use Orchard Scions as far as possible and vigorous healthy Seedlings, carefully selected when grading our blocks of seedlings.

All grafts are carefully assorted and only the best of material used in orders, so that customers can depend upon getting a first-class article. Orders should be placed early to procure the best selection of varieties and to give the Grafts ample time to callous before shipment.

Our Piece-Root Grafts are made with a six-inch Scion and three and one-half inch Root, the same style that we make largely for our own planting. For Whole-Root Grafts we use the entire Seedling, either a straight or branched root as the customer may select. **Any style of Graft made to order.**

WHOLE ROOT GRAFTS

Some of our customers get best results from planting Whole Root Grafts, which are made with a Scion about six inches in length and a branched or straight Seedling. We recommend a strong branched Seedling as it will usually give the best results.

Grafts should be planted at the earliest date in the Spring the season will permit, in rows about three and one-half feet apart and seven to eight inches apart in the row. The ground should be plowed deep (in the fall preferable) and well prepared before planting.

Machine Wrapped Grafts

We have installed Graft Wrapping Machines run with electric motor for wrapping Grafts. We are able to do much better wrapping of the union of the Grafts and the continuous machine wrapping will materially reduce the percentage of crown gall, which frequently develops about the union of Root and Scion in grafted Apple Trees.

We have found from experience that the continuous machine wrapping with dry thread increases our stand.

Prices of Grafts in Assortment

DECIDUOUS TREES

Our Shade and Ornamental trees are first-class, well-shaped, young and vigorous nursery grown trees, with good roots. They have been grown from seedlings transplanted in nursery row especially for this purpose.
